

Instituut Schreuder: een dynamische en lerende school die elk kind tot volle ontplooiing kan laten komen.

## In this newsletter

- Schreuder Theater postponed to Feb 7th
- Parent room NT2
- LVS keys
- Welcome new school students
- Start of programming weeks
- After-school activities
- ParnasSys data check
- Musical Project in Schouwburg Amstelveen
- News from the neighborhood
- Found objects / clothes at gymnastics

## Important dates

- Mo. 03-02** Visit to Concertgebouw gr. 1/2  
OR- meeting
- Th. 06-02** Parent room: bilingual education (NT2)
- Fr. 07-02** Information meeting for new parents  
Visit to Concertgebouw gr. 7/8A and B  
Schreudertheater
- Fr. 14-02** Study day teachers; all pupils have no school
- Mo. 17-02 / fr. 21-02** Spring break
- Tu. 25-02** Information meeting for new parents
- We. 26-02** KOM-gesprek ( parent-child-teacher) and 1st school report
- Fr. 28-02** Newsletter-7

## Schreuder Theater postponed

The Schreuder Theater was originally planned for Friday 31 January. Due to the scheduled strike of January 30 and 31, this edition has unfortunately been canceled. In order to be able to show you all the beautiful things, we have decided to relocate the Schreudertheater to Friday 7 February.

Each group gives a performance of approximately 8 minutes.

The time slots are:

- 13.05 - 13.35 group 3, group 4 and group 6
- 13:40 - 14:05 group 1/2, group 7 / 8b and drama group\*
- 14:10 - 14:35 group 5, group 7 / 8a and drama group\*.

Your child will also invite you to come. If you want to come and have a look, you can take a seat behind the children, on the stairs or at the top of the balustrade. Due to privacy, we would like to ask that you only take pictures of your own child. We're looking forward to welcoming you!

\* some pupils from the upper classes give a presentation that they have devised and practiced during group-breaking crea!

### Parent Room NT2

This parent room will be dedicated to bilingual or multilingual education.

How do you do that?

What does that do to children?

What are the recommendations?

How does it work in practice?

What is tricky? What is nice?

The working language will be English this morning. There is Dutch translation.

Speaker and experience expert: Gertrude O`Byrne

**Hopefully until Thursday 6 February at 8.45 am in the BSO-room on the first floor!**

### LVS tests (pupil follow system / and Cito tests)

In the weeks of 20th of January to 31st of January we are taking the CITO tests at school. This happens twice a year, in January and in June. These non-method bound tests are important to be able to measure the skill growth of students over a longer period (5 school months). They are more objective and enable comparison with other students, groups, schools, etc. With the Cito tests we can follow the development of all individual pupils, groups of pupils and the education at our school.

The teachers also take method-bound tests from the children, from group 3. These tests tell a teacher whether the goals that have been discussed in a certain period are mastered. A test associated with the teaching method is an important tool, because a teacher can determine the approach for the next lesson based on this information. The results of these tests have a strong connection with his daily teaching practice.

The non-method bound tests from Cito provide information about the development of a student in relation to the previous measuring moment(s). The tests provide answers to questions such as: can the student's degree of progress in the recent period, be compared to the degree of progress in the preceding periods? Is his / her development still showing an upward trend or are the progress stagnating? Is the student still 'on schedule'?

The non-method bound tests also provide information about the quality of education at school level. They provide answers to questions such as: what does education deliver in terms of results? How does the actual development work? What effect do certain measures and efforts have? An important difference between the Cito tests and the method-bound tests is that the Cito test is a national test: it is compared with all children in the Netherlands.

### Which Cito keys do we take?

- Language for preschool children, group 2
- Arithmetic for preschool children, group 2
- Arithmetic and mathematics, groups 3 to 8
- Reading comprehension, groups 5 to 8
- AVI (technical reading on text level), groups 3 to 8
- DMT (technical reading at word level), groups 3 to 8
- Spelling, groups 3 to 8
- Vocabulary, groups 3 to 8
- Study skills, groups 6 to 8

### What do we do after the test?

All results are analyzed by the teachers, together with the internal supervisor. These analyses, together with the experiences in the group, will be used in the coming period to coordinate the offer in the lessons with the educational needs of the child. In addition, the results are looked at at group and school level in a trend analysis. The parents will hear, during the KOM interviews (15 minutes conversations with the teacher), the results on the tests taken in February. But through the parent portal ParnasSys you can view this data earlier, just like the results of the method bound tests. The ParnasSys Portal is now closed so that the teachers can first analyze the results of the tests themselves.

### Report and KOM interview

In the week before the spring break you can sign up for a KOM interview, in which the school report will be the topic of discussion. These KOM interviews are planned from 26 February to 10 March. The report is prepared 15 minutes before the interview for you and your child, along with other schoolwork of your child. After the KOM interview you can take the report home. After 3 weeks we expect the report to be brought back to school. Groups 1 and 2 do not have a school report. A KOM interview is of course still possible.

### Welcome new school students

# Welkom!

In the past month 4 new students started in group 1 at Instituut Schreuder. It is nice if you as a parent get to know the parents of these students and it is also useful to know when you want to make a play appointment: Jan Stahievitch, Anna Verdonck, Joya Veldman, Laura Veliz Munoz.

In group 6 Yasmin Ben Tani has started and in group 7B Rayan Ben Tani. We wish the new students a pleasant and educational time at our school!

### Start programming weeks

After the spring break, the programming weeks for the children in groups 5 to 8 begin.

Children grow up in a world that is increasingly influenced by technology. They use it daily, but often do not know how technology really works. During the lessons of Bomberbot, children work on important 21st century skills, such as critical and creative thinking, problem solving, collaboration and communication. The students learn the basics of programming with Bomberbot. The children of group 5 start with the first 5 lessons.

Group 6 takes lessons 6 to 10 from Bomberbot. They can get their diploma this school year. Working on the assignments at home is necessary.

The children in groups 7 and 8 start working with code.org. They do an introductory course, in which different programming languages are discussed. There are more courses on code.org. For the rest of the school year, they can deepen further at home if there is an interest in it.

### After-school activities

- **Swimming;** at the moment there are still spots available for swimming in the Zuiderbad on Friday afternoon. For information and registration please send an email to: [activitiesSBOS@gmail.com](mailto:activitiesSBOS@gmail.com)
- **Soccer training;** There is still room in the after-school football class for groups 2, 3, 4 on Tuesday 2.45 pm to 4.00 pm in the school gym. More information and registration for a trial lesson can be done via [info@movendi.nl](mailto:info@movendi.nl).

### ParnasSys parent & student data up to date?

It is important that we have the correct information from you in ParnasSys. Would you like to check your data in the parent portal and, in case of incorrectness, send it to the administration by e-mail:

[yvonne.verhage@amosonderwijs.nl](mailto:yvonne.verhage@amosonderwijs.nl)? This mainly concerns: telephone numbers, e-mail address and emergency number correct / present? (= a number of a family member / acquaintance that we can call if we cannot reach you).

### News from the neighborhood

Starting during spring break, the school at Van de Veldestraat 3, Cornelis Vrijsschool, will be redesigned. The students and teachers from that school will be housed on the other side of the Museumplein for a year. The building will be flush, with the exception of the exterior facades. The building is being completely rebuilt behind the facade. This renovation also has consequences for Schreuder Institute: the passage between P.C. Hoofstraat and Jan Luijkenstraat will be closed (is building site) and the fenced play location becomes building site / storage site. On Monday and Friday our gym is in use for Cornelis Vrijsschool (9:00 am - 3:15 pm)

It has been agreed with the contractor that there is no supply and removal of materials between 8:00 AM and 9:00 AM and between 2:30 PM and 3:30 PM so that Schreuder's parents can safely bring the children to school and pick them up.

When you use the passage from P.C. Hoofstraat is therefore important to choose a different (safe) route. If there are any issues that endanger the safety of you or the children, please contact Femmie. She will then record this with Cornelis Vrijschool.

### Musical project Schouwborg Amstelveen 17 to 20 February 2020 | 10:00 to 15:00

FOR THE SECOND TIME IN THE SCHOUWBURG AMSTELVEEN;

BECOME A MUSICALSTER IN 4 DAYS! Do you like singing, dancing and acting and are you between 6 and 12 years old? This spring holiday

the [Musical4daagse](#) returns due to success in collaboration with the Schouwborg Amstelveen. Make a musical in 4 days for a real audience. No experience required!

# MUSICAL

The unique concept gives children from the age of six the opportunity to follow a one-time musical training during the holidays. Both the rehearsals and the presentation take place in the Schouwborg Amstelveen. For whom? Everyone with a passion for singing, dancing and acting can participate! Children from 6 to 12 years can register for the Musical 4 days. You can register until 3 February 2020 via the website:

[www.musical4daagse.nl](http://www.musical4daagse.nl). Please note, there is only limited space! Costs for 4 days: € 157.95 More

### Found objects gymnastics

On February 14th we will take all gym clothes, sneakers etc that have been left behind in the changing rooms to a good cause. If your child misses something, you can check the wooden cabinet next to the gym before that date.
